

CLAUS HASSING - 'OPEN YOUR HEART' (DEBUT ALBUM)

Danish singer songwriter Claus Hassing is ready with his debut album '*Open Your Heart*', an album that's bursting with genuine emotion in both vulnerability and faith in love.

"I've made a genuinely organic album touching on both rock music and heartfelt ballads", says Claus.

A key trademark to Hassing's sound are his powerful vocals, which he delivers effortlessly and contain a unique charismatic radiance.

Hassing has been producing music in the studio for others over the past decade and now feels its his turn to step into the limelight. The Dane now presents 16 songs that make up the album '*Open Your Heart*'. A majority of the album was recorded in Copenhagen with the exception of stand out single "I Wanna Be", which was produced in Los Angeles by Jared Robbins, one of the guys behind the music of John Mayer.

"My songs primarily contain a lot of what I've been carrying the last 10 years. A divorce, death in the family and faith in new love has forced me to work with all facets of life, resulting in songs that are meaningful and honest. The album has become a kind selection of events from my life", explains Claus.
